* Errors and omissions possible.

Data adjusted for total no. of suspected cases and total no. of tests performed. *Surveillance data adjusted and residents of RWP and other areas removed from the Islamabad data.

^ This information pertains to Provincial Reference lab only. It does not include data from other labs.

^^ No. of tests performed reflect the tests with results announced.

Updates: Pakistan:

- During last 24 hours, 252 new cases confirmed by different laboratories, bringing the national tally to 2,291. Two deaths reported from Punjab and KP each. One death reported from Sindh in last 24 hours. Total deaths 31.

Global:

- Total cases:937,170 Total Deaths: 47,231
- Total number of countries/regions affected: 180

NIH Preparedness and Response:

- Contact tracing of confirmed cases being carried out by the RRTs.
- Risk communication carried out among healthcare workers and affected communities during contact tracing.
- NIH laboratory is providing support to provinces and regions for testing.

Risk Assessment: Current impact of the disease in Pakistan is: **High**

Provinces Preparedness and Response

Balochistan	• WHO is facilitating the RRT training initiated by NIH with the collaboration of USAID to strengthen PDSRU and establish DDSRU.
Sindh	• Sindh Government has established Corona Virus Emergency Fund.
Punjab	• Provincial Cabinet is daily reviewing the emerging situation of COVID-19 in the province.
KP	• A uniform, comprehensive and standard case reporting format has been developed. Data of all cases will be collected on this format.
AJK	• MNCH program released Rs. 2.25 million to all 10 districts health officers for provision of PPEs to MNCH staff working at all hospitals and field front line workers.
GB	• Involvement of WHO staff to provide support in terms of data management at district level

Risk Communication Message:

- Clean hands regularly with an alcohol-based hand rub, or wash thoroughly with soap.
- Clean surfaces regularly with recommended disinfectants (70% Ethyl Alcohol or 0.5% bleach solution).
- Avoid touching eyes, nose and mouth with contaminated hands.
- Practice respiratory hygiene by coughing or sneezing into a bent elbow or tissue and then immediately dispose off
- Wear a medical/surgical mask if you have respiratory symptoms and perform hand hygiene after disposing off of the mask
- Maintain a minimum of mandatory two meter distance from individuals with respiratory symptoms.
- Healthcare workers are required to select and use appropriate PPE.

Administrative controls

- Ensure the availability of IPC resources such as PPE, appropriate infrastructure, clear IPC policies, access to lab testing, triage and patient placement, adequate staff and training of the staff.

Environmental and engineering controls

- Stay in ventilated rooms
- Clean the surfaces with recommended disinfectants.

Social Behavior Change:

- Practice social distancing, particularly from individuals showing respiratory symptoms.
- Avoid mass gatherings like weddings, cinemas, crowded shopping malls and restaurants.
- Avoid gathering of more than 10-20 persons.
